Re.
EU Taxonomy Compliance Statement

Železiarne Podbrezová a.s. hereby certifies that its steel products, including continuously cast steel billets, hot-rolled seamless steel tubes, cold-drawn precision seamless tubes, and steel fittings, are manufactured with over 90% steel scrap content, in line with EU Taxonomy requirements. Železiarne Podbrezová a.s. currently operates modern technological facilities, with steel production carried out using an integrated recycling process of steel and cast iron waste in an Electric Arc Furnace (EAF).

For the period from January 1, 2023, to December 31, 2023, the recycled material – steel scrap – accounted for:

with an overall recycling rate exceeding 96%.

from external sources: 80%
from internal sources: 20%

In alignment with our commitment to sustainable steel production practices, the steel scrap used is sourced within a 250 km radius from our production plant through our subsidiaries, significantly reducing our environmental impact.

The company has issued an Environmental Product Declaration (EPD) to demonstrate responsibility for the environmental impact of its products and to support eco-conscious decision-making for customers who prioritize sustainable products.

Železiarne Podbrezová a.s. is certified under the EN ISO 14001:2015 standard for Environmental Management Systems, reflecting our ongoing commitment to responsible environmental stewardship and resource management.

Sincerely,

ŽELEZIARNE®
