Re.
Declaration of Origin of Steel

Železiarne Podbrezová a.s. hereby declares that the steel produced in our plant is **melted and poured in the Slovak Republic**.

The entire steelmaking process — from melting of steel scrap in an electric arc furnace to continuous casting of billets — is carried out exclusively in our production facilities in Podbrezová.

This ensures that the steel has **Slovak origin**, in accordance with the *"melted and poured rule"*, which determines the country of origin of a steel product based on where the steel was originally melted and poured.

Sincerely,

Ing. Vladimír Soták
Member of the Board of Directors
